

SADULA MAMATHA

COMPUTER SCIENCE ENGINEERING STUDENT

+91 7601008176 | sadulamamatha10@gmail.com | Gandipet, Hyderabad, Telangana
Linkedin: mamatha-sadula-591aa2420 | HackerRank: sadulamamatha10 | Trailhead: noingj4jgl3tbaeiij

PROFILE SUMMARY

Motivated Computer Science student with a keen interest in software development and emerging technologies. I enjoy learning new things, exploring innovative ideas, and improving my technical skills. I am looking for opportunities to gain practical experience, contribute to meaningful projects, and grow as a professional in the IT industry.

EDUCATION

- B.Tech, Computer Science Engineering – Vidya Jyothi Institute of Technology | CGPA: 8.50 | 2025–2028
- Diploma, Computer Science Engineering – T.R.R. College of Technology (Polytechnic) | CGPA: 9.40 | 2022–2025
- S.S.C. – Sri Goutham High School | CGPA: 9.30 | 2022

PROJECTS

AI Interview Mock Master — HTML, CSS, JavaScript, Python, AI/API Integration

An AI-powered web application built to help students prepare for technical and HR interviews. It simulates realistic interview scenarios by asking role-specific questions, capturing the user's spoken or typed responses, and using AI/API integration to analyze answer quality, tone, and clarity. It then generates instant, actionable feedback so users can identify weak areas and practice repeatedly before a real interview, improving both their communication and technical presentation skills.

Smart Mirror — Raspberry Pi, Python, HTML, CSS, JavaScript, MagicMirror²

An IoT-based smart display built on a Raspberry Pi using the MagicMirror² framework, styled with HTML, CSS, and JavaScript modules. The mirror surface shows live time and date, local weather, current news headlines, and personal notifications at a glance. The project involved setting up the Raspberry Pi hardware, configuring the two-way mirror and display assembly, and customizing modules to pull real-time data from external sources.

Quiz Application — HTML, CSS, JavaScript

An interactive web-based quiz platform where users answer multiple-choice questions across categories and receive their scores instantly. It uses JavaScript to handle question logic, timing, and score calculation in real time, with a clean, responsive HTML/CSS interface designed to keep the experience simple and user-friendly from start to finish.

SKILLS

- Programming: Java, Python, C, C++, SQL, JavaScript
- Core Competencies: Problem Solving, OOP Basics
- Web Technologies: HTML, CSS
- Database Management (SQL), Fast Learner

CERTIFICATIONS & ACHIEVEMENTS

- Deloitte Cyber Job Simulation Certificate
- HackerRank SQL (Basic) Certificate
- Java Full Stack Virtual Internship Certificate – EduSkills (AICTE Approved)
- Python Full Stack Virtual Internship Certificate – EduSkills (AICTE Approved)
- Red Hat Training – Linux Fundamentals Completion Certificate
- Salesforce Trailhead – Agentblazer Champion '26
- Salesforce Trailhead – Agentblazer Innovator '26 (In Progress)
- 34 Salesforce Trailhead Badges
- Smart India Hackathon (SIH) – Participation Certificate
- IEEE SSIT HackXplore India Hackathon – Participation Certificate
- CSI State Convention 2.0 – AI 100K Webinar Participation Certificate
- Engineers' Day Certificate of Excellence – 2nd Place (TRR College of Technology)
- National Science Day – 1st Place (Model Making & PPT Presentation)
- Best Project Certificate – Smart Mirror Project (Final Year Diploma)

LANGUAGES

Telugu, English, Hindi

HOBBIES & INTERESTS

Exploring New Things, Dancing, Singing, Playing Cricket, Cultural & Extracurricular Activities
